

Newsletter no 4, May 2020, Tirana, Albana

www.ips.gov.al

Dear reader,

The year 2020 was seen as the year of hope for Albania for the recovery from the earthquake, but has now turned into the most difficult year for economy of our country and the world.

In a few months of living with the virus, we have digitized ourselves and learned a lot in the process. The publication of this newsletter was not possible during Covid-19, but all teams are committed to put IPS in place and go live.

In this issue you will find updates on the progress during all this time.

Wish you enjoy reading and please drop us a line about what you'd like to see here.

IPSIS NEWS

CoM decision of IPSIS use issued on April

UAT successfully completed for IPSIS system

Based on Council of Ministers Decision no 290 date 11.4.2020, “For the creation of Government Integrated Planning System Information System (IPSIS)” central institutions are obliged to create strategic documents, define policies, costing measures...[more](#)

User Acceptance Tests for IPSIS have taken place during the month of April for all modules of IPSIS, where all test scripts are approved based on the manuals prepared for every module of IPSIS. For every testing and approval of test scripts there have been ...[more](#)

IPSIS Training survey and evaluation

In the light of building capacities for IPSIS system, a training plan has been drafted and implemented comprising in three phases:

First phase is related to training of the core groups of each module, which are identified as ToT for every module in order enable them to host modules within Ministry structures (first phase has trained 106 ToT users)...[more](#)

AFMIS NEWS

Testing HRMIS - AFMIS at Treasury office at MoFE

On 8 May started the testing process with real data on the integration of HRMIS with AGFIS for the automation of public administration employee salary payments. The testing process is going well, however there are encountered some minor issues from HRMIS...[more](#)

AFMIS integration progress in COVID-19 time

Currently there are live in AFMIS (these modules MTBP, PIM and BPPM) 9 (nine) Ministries (out of 11) and 16 Budgetary Institutions (out of 35). The process of data population and roll-out is not continuing due to Covid-19 restrictions [more](#)

AFMIS roll-out & systems contracting at glance

The Progress of AFMIS system during January-May 2020 is as follows: The Treasury team is following the daily operations. There are currently 102 budgetary institutions accessing the Web Portal. For the time being the Roll-out is focused only in the configurations of new users and BI's in the system and the support of BI's which are using the web portal already, an activity carried out by IT and the functional support staff at MoFE. [..more](#)

EAMIS NEWS

EAMIS is fully integrated & waiting Certificate of Acceptance

The good news for EAMIS is that during this period the integration with real data of EAMIS with AFMIS is completed. Another very important integration is with EAMIS and World Bank Client Connection platform. These enable EAMIS to get real data from World Bank projects in real time with no further need for manual work on entries...[more](#)

Did you know?

More 7,000 users will use the Integrated Planning System, whereas 1,062 users for IPSIS, 6,500 AFMIS users and 250 users of EAMIS. As regards to institutions involved, more than 1600 institutions will be using IPS.

Integrated Planning System is implemented through the support "SPI- multi donor trust fund 2" consisting of 5.2 million Euro, The project is managed by World Bank and co-financed by Swedish Embassy through (SIDA) EU and Swiss Development Cooperation (SDC).
